This land was given by the Presbyterians to the Cemetery Association in 1915. Marked by the Cemetery Association of Camden, 1954.

IMMUNITY OF THE RAT
J. H. HOLLAND, JR., and J. H. HOLLAND, JR.
The effect of vitamin deficiency on the immunity of the rat has been studied by feeding a diet deficient in vitamins A, B, and C. The results show that the immunity of the rat is retarded when the diet is deficient in these vitamins. The effect is more pronounced when the diet is deficient in all three vitamins than when it is deficient in only one or two.
